Training Course in the Ministry of Healing and Wholeness

‘Growing a Healing Ministry’ has been produced by **the Acorn Christian Foundation** to help Christians learn about the healing ministry and to apply what they learn in and through their local church. It is designed as an interactive course for large or small church groups and assumes no prior knowledge or experience in Christian healing. It can however also be used as a refresher training course, and leaders and groups may wish to adopt the material to suit their circumstances. Each session builds on the one before, so it is desirable that group members be committed to the whole course. ‘Growing a Healing Ministry’ makes no assumptions about how you practise this ministry within your local church setting and so is suitable for churches of every description and churchmanship. It is assumed however that a healing ministry will always be exercised under the authority of the church leadership to whom individuals are accountable. This course is designed to help you decide how best to put what you learn into practice so that healing ministry becomes part of how your church expresses the transforming love of Jesus.

O loving God who died to save us truly, where there is despair in life, let us bring hope, where there is injury, let us bring your pardon, where there is dark doubt, let us bring true faith in you. Amen. (Based on the Prayer of St. Francis of Assisi.)

Material is drawn from the writings of :

Bishop Morris Maddocks, Archbishop Desmond Tutu, Revd Russ Parker, Revd Wes Sutton, Revd Canon Anne Long, Dr David Pearson (Healing Advisor, Diocese of Portsmouth).

Bishop Morris Maddocks: “Christian healing is Jesus Christ meeting you at your point of need.”

Growing a Healing Ministry has been approved for use in the Diocese of Gloucester.
