

This Is Our World

If we're gonna close our eyes
To the things we do
And the things we say
Then when will we realise
There's a deeper love
There's a better way

True love and forgiveness
Is all that we need
And a heart open wide

This is our world and this is our time
Great is the love together we find
This is my hope and this is my prayer
I wanna take you there

If we're gonna understand
What it is to give
What it is to care
We do everything we can
In the way we live
In the love we share

True love and forgiveness
Is all that we need
And a heart open wide

This is our world and this is our time
Great is the love together we find
This is my hope and this is my prayer
I wanna take you there
This is our world.
